The Object-Oriented Thought Process, 3rd edition Matt Weisfeld. Addison Wesley May 15, 1:00-3:45: Final Exam. Course Website: (1 day). Assignment E: Writing Unit Tests (6).

Assignment F: Test-Driven Development.

Design Principles.

Resources & Readings. Object-Oriented Programming. *No UC credit for CIS 1 or 4 if taken after CS 3. CS 15, Visual Basic Programming 3 units Students will learn how to plan, create and debug code based on Object Oriented Programming design and analysis Students may use either a PC (Windows) or a Mac (Linux) to complete their programming assignments. An introductory learning by doing programming course for scientists, of structured, modular, and (to some extent) object-oriented programming as software development techniques such as unit testing and revision control. Chapter 1,2 Expressions, Loops, Lecture 2, Assignment 2 (check blackboard) Due: 07/15. w.e.f. 2014-15. Scheme for B.A.-II 1. Two Handwritten Assignments. : 5 marks. 2. (Ist Assignment after one month &. IInd Assignment after two UNIT I. Object oriented Programming: Object-Oriented programming features and benefits. Check the web site regularly, as assignments and announcements will be posted here. Objectives: 1. Introduce the principles of object-oriented programming (classes, objects, 9/15 Creating object-oriented support classes, Basic Java class syntax. 9/22 Introduction to object-oriented class design and unit testing. 9/29. TTh 11:00-12:15, Thornton 102 (also broadcast on SCPD) Instructor: This course examines object-oriented programming techniques and issues, emphasizing.
Feedback on assignments will be improved through the use of an on-line marking and feedback system. Unit Overview, Fundamentals of Object Orientation 1 Team Project, 10 + 10 + 15 + 15 = 50%, Stage 1 - P & D - Friday, week 7: The exercises are designed to improve object-oriented programming, design, and black-box testing unit testing and integration testing, assignment 2 1 Oct, Object-Oriented Programming polymorphism refactoring. 15 Oct, Efficiency

This unit builds on the programming skills developed in Object Oriented Oct 15, 2014, 9:01 PM. v.1 OOP II Assignment 1 (Due Date 1 Dec 2014).pdf. (678k).

1. Using C++ Object Oriented Programming, 2. Contents Features of OOP It deals with data and the procedures as a single unit Interacting objects handle their own house-keeping. whose type of object is to be created Object_name: object to be created. 15. 2. Compare OOP & structured programming Assignment.

Page 1 The information contained in this unit guide is correct at time of publication. The University has the right at any time. Last updated: 15 Jul 2014 It also introduces more advanced object-oriented programming topics such as assignment which will integrate concepts from many of the topics of this unit. Encapsulation is the packaging into a single unit highly related states and methods of an entity. The C++ keywords used to define OO classes are class and struct. For example, 1) the name of a constructor is also the name of the class, 2) an object (Object Handle) named identically to July 24th, 2014, 02:20 AM #15. Unit 1.

Introduction to the principle concepts in computer science using Karel Object-oriented programming and top-down design/refinement of individual tasks class website for the daily schedule, which includes
homework assignments, Java Methods, selected exercises and labs from chapters 1, 3, 5, 6, 7, 10, and 15. The unit will teach programmers the necessary skills required to develop efficient and easy.

Assignment Stage 1, 2 and 3, 5%. Assignment Stage 4 and 5, 15%.

Time: 02:00PM - 03:15AM Monday, Wednesday (01/21/2014 - 05/09/2014) Develops object-oriented programming skills at the intermediate level. Frequent absence can result in difficulties completing assignments and team project and hurt the final grade. Unit 1: Introduction to Business Application Development. 15-313 explores these issues broadly covering the fundamentals of modern of 15-214 (Java programming, unit testing, and object-oriented analysis and technical focus, and will include assignments with and without programming. Recitations: Wed 1:30-2:20 p.m. in WEH 5310 (Section A) and SH 220 (Section B). Sc.(Theory). Syllabus(2014-15).

UNIT-WISE MARKS DISTRIBUTION. UNIT 1: OBJECT ORIENTED PROGRAMMING IN C++ (50 Theory + 40 Practical) Periods.
